

## **SMILE MAKEOVER MASTERCLASS LIVE**

*Ideal for dentists that want to learn HOW to treat bigger clinical cases with confidence*

### **Learning Content**

This is a 3-day Course that Ash does once a year for up to 25 dentists. You will have the opportunity to watch a 8-10 unit (porcelain restorations) restorative/cosmetic case being treated live. Using high definition video for a close up view of the mouth, and interactive communication with Ash, you are assured of the best learning experience.

Ash will do the preparation, trial smile creation, review and cementation – all within 3 days! The following areas are covered on this unique Course: -

#### **Day 1**

- Introduction lecture on Smile Analysis, and how to do teeth preparations precisely, which burs to use and why, the best instruments and materials to use
- Live practical demonstration of a patient being treated. You will learn step-by-step how Ash treats a patient in his private practice *in real time*
- A soft tissue diode laser will be used for minor gingival recontouring to get the best zenith positions of the gingivae for the ideal end result
- The Trios (3 Shape) digital scanner will be used to take digital impressions and a digital bite registration, and this will be supported by other clinical records needed in doing a Smile Makeover case
- Using Luxatemp & Luxaglaze, Ash will create beautiful aesthetic and functionally accurate temporary restorations
- T Scan – the best occlusion checking software in the world – will be used to verify the accuracy of the occlusion, i.e. ensure correctly adjusted temporary restorations
- Introduction lecture (late afternoon) – an important overview of how to create a successful cosmetic private dental practice.

#### **Day 2**

- Review of the patient (“Trial Smile Review”) to finalise the shape, colour and take various records essential for perfect laboratory communication
- Case selection – how to choose the correct patients for Smile Design in your practice
- Diary management and fees to charge for the various stages of doing a Smile Makeover
- A-Z of cosmetic dentistry – a detailed review of all the cosmetic treatment options using minimally invasive techniques to give the patient a great looking smile. There will be an emphasis on using composite (and fibres)
- Role Play – a chance to see a live New Patient Consultation done by Ash – you will learn invaluable communication skills in this exercise
- Failures – a lecture on things not to do, and patients not to treat – learn from the mistakes Ash has made over 20+ years of clinical dentistry.

### **Day 3**

- Occlusion and T Scan lecture – tips on occlusion that you can quickly implement in your practice easily and confidently for more successful results
- Cementation lecture – step-by-step guide on how to fit 8-10 porcelain restorations under rubber dam in a confident and relaxed manner
- Role Play – Case Presentation using PowerPoint and interaction with a Treatment Coordinator. Learn exactly *how* Ash presents his treatment plans a week after the full assessment (Ash has a high standard of wanting 90% case acceptance for his treatment presentations)
- Cementation – fitting of the porcelain restorations for the patient – live demonstration
- How to become a successful dentist – final lecture on achieving your professional goals and living a balanced life.

### **Aims & Objectives**

The aims of this unique and inspirational 3-day Course are: -

- Dentists to get a clear theoretical and practical insight in to doing comprehensive dentistry, i.e. Smile Makeovers
- Understand the best materials, instruments and equipment that can be used to deliver the optimum results for your patients
- Learn about minimally invasive treatment options to improve smiles
- Observe use of modern technology like the Trios digital scanner, soft tissue laser, and T Scan to achieve ideal outcomes for patients
- Learn communication skills for increased case acceptance
- Interactive lectures, discussions and hands-on sessions for the best learning experience.
